January

The Hot Line® **TRANSPORTATION DIMENSIONS GUIDE**, is your specialized source for all types of transport dimensions for heavy construction machinery, cranes and lifting equipment as well as ag machinery from the leading manufacturers in the industry. This resource guide is available in Print and in an Online version for subscribers. The Guide will provide advertisers an economical source to market products and services to qualified readers worldwide.

Circulation is to paid subscribers who order the guide because they need it and use it. A Digital Version of the annual edition featuring the Advertisement ONLY is available on the Hot Line® website [www.hotlineguides.com](http://www.hotlineguides.com), allowing readers to link direct to an advertiser's website or email, share a specific ad by emailing to a friend, as well as save the entire or portion of the pages of advertisers for reference later.

**Advertising Deadline:**  
First Friday in November  
**Distribution Date:**  
January

The Hot Line® **MATERIAL HANDLING GUIDE**, is your specialized source for aerial lifts, rough terrain forklifts and construction telehandlers. Information includes equipment manufactured from 1970 to current, both scissor and boom lifts, engine type, height, capacity, machine weight on models with 500 pound capacity and more.

**Circulation is to paid subscribers!** They are active in the equipment industry and purchase the guide for its valuable content and use it over and over, giving your message the opportunity to be seen year round.
