Welcome to SpaEquip!

We offer you the widest selection of spa equipment and supplies available anywhere, and continue to expand our product offerings to meet your needs. As the leading full-service provider of spa and salon equipment, our services range from design to project management, to the technical documentation and support your contractors will need for a smooth implementation.

SpaEquip distributes all the major brands of spa equipment throughout the United States and around the globe. With offices in the US, Europe and Asia, our global sales and procurement abilities enable us to bring the world's best products to spas everywhere. We are constantly on the lookout for the newest and most exciting new spa products available worldwide, and because of our prominence in the industry, anyone with a substantial new product will bring it to us first.

Saving You Time, Money and Headaches

As the largest distributor of spa equipment, our considerable buying power allows us to offer favorable pricing to clients around the world. In addition to volume pricing, we handle the challenges of complex orders involving many different vendors on a daily basis. This includes the coordination and consolidation of shipments from multiple vendors to get everything to the right place at the right time.

Personalized Service for Supplies and Implements

Whether you are opening a new spa or adding new services, we can tailor a personalized package just for you. Our supplies experts will work with you to develop a complete listing of required supplies, implements and basic treatment products for each treatment you offer. We also provide special handling services such as marking boxes by room name, with item lists that include a photo of each item ordered.

Spa Development Services

As an industry pioneer with 20 years of experience, we have learned what it takes to support your success. Leading spa and salon properties depend on us for all their equipment needs. Our equipment consultants, designers, product specialists and project managers bring a broad range of expertise and experience to your project. Call us at (707) 737-1100 to learn more about our services and how we can save you money by consolidating your purchases.

Treatment Tables & Room Accessories

All-Electric Spa Tables

These spa tables allow the technician to make all table adjustments under electric power, including the lift height plus back and leg angles. They are completely adjustable by push-button controls with the client in position on the table.

Antigua Spa Table Package from Oakworks

This all-electric table adjusts height, back and leg lift with almost limitless positioning of the client at the touch of a button. The top is upholstered with ultra-soft Aero-Cel padding in TerraTouch vinyl covering. Below the elegantly designed table is a storage cabinet with electrical outlets (for easy access to a hot towel cabbie or other electrical devices). Includes Quicklock face rest, 1 foot control, 1 hand control. Base cabinet is made of real wood veneer, with Natural Maple wood stain standard. 625 lb. distributed load lifting capacity.

OWANSPK \$4,725.00

Artesian PowerTilt Multi-Function Table from TouchAmerica

With the PowerTilt top for all-electric operation of back and leg tilt, the Artesian table expands treatment options with a patented design that allows pedicures, manicures, facials, wraps and medi-spa treatments on the same table, while therapists take advantage of the ergonomic positioning provided by the Artesian's pedestal base design. The pedicure basin uses only two gallons of water per treatment, is available with or without jet system, and can be connected to plumbing lines, or filled and drained manually. Includes hand control for height and tilt adjustments.

TAI1353 \$4,795.00

Atlas Biologica Treatment Table from TouchAmerica

Eco-friendly plus flexible client positioning with this double pedestal table. Combining all popular spa table features with Earth-conscious material selection makes the Atlas Biologica a new standard for wellness treatment tables. The base is made from laminated, easily-regenerated bamboo. Water-based, low VOC varnish is durable and environmentally friendly. The lower cushion, made partly from palm fiber, and the recycled metal of the frame make this a truly "green" treatment table.

TAI1390 \$4,395.00

Atlas Classic Treatment Table from TouchAmerica

This all-electric double pedestal treatment table is strong, flexible, and can tilt at angles that would be impossible with other tables. The 4" thick foam cushion invites clients to enjoy the treatment in absolute comfort, and the pedestal base is durable anodized aluminum with a clean white powder-coat finish.

TAI1380 \$3,495.00

All-Electric Spa Tables *continued*

Celesta Deluxe Spa Table from Oakworks

Unique multi-level design provides optimum ergonomics and body mechanics. Two lifting columns provide 15° tilt in either direction. All-electric push-button controls for height, back rest and leg rest adjustments provide smooth, quiet positioning. Includes 2 foot controls plus multifunction hand control. Rich wood base. Side Arm Rests and Face Rest (shown here) are available separately. Lifting capacity is 625 lbs.

OWCD **\$3,775.00**

Celesta Gemini Spa Table from Oakworks

Electric lift base and client positioning adjustments are all controlled at the touch of a button. Electrified cabinet accommodates a hot towel cabinet or sterilizer. The top is outfitted with state of the art Aero-Cel padding and upholstered with TerraTouch fabric. Base cabinet is real wood, with light maple stain standard. Lifting weight capacity: 625 lbs.

OWCG **\$5,250.00**

Clodagh Leo Spa Table from Oakworks

This multipurpose spa table has a whisper-quiet electric lift with a fully-articulated salon top and hydraulic lift base. Designed by Oakworks and renowned interior & spa designer Clodagh for a fusion of comfort, strength, reliability and aesthetics. Fully electric top with 4" AeroCel padding and UltraTouch II fabric.

OWCLOL **\$3,450.00**

Clodagh Signature Series Spa Table from Oakworks

This spa table is co-designed by Oakworks and renowned interior and spa designer Clodagh, featuring a sophisticated Asian-inspired appearance with Oakworks' hallmark comfort, strength, and reliability. Sophisticated, modern cabinet is made of real wood and is electrified to accommodate a hot towel cabinet or other device. The electric lift base controls table height, while the Access-End top allows almost limitless positioning of the client at the touch of a button. The top is upholstered with state of the art Aero-Cel padding and Oakworks' patented UltraTouch II fabric. Recessed ends provide convenient storage for oils and lotions. Includes Quicklock Face Rest, adjustable and removable Side Arm Rests, foot control and hand control. Maximum working load: 625 lbs.

OWCLOS **\$5,850.00**

Cloud 9 Multifunction Spa Table from Living Earth

Crafts Fully articulated with whisper-quiet electric operation, this top-of-the-line multipurpose table provides extra knee room for all types of treatments. Features 8-button hand control, 4" Strata memory foam, rounded corners, flexible sidearms, footrest, headrest pillow plus neck roll. The Cloud 9 has the ability to fully lower the leg section for pedicures, allowing multi-function treatment room use. ADA Compliant, Lifting capacity is 500 lbs.

LE01 \$4,995.00

**Cloud 9 with Wood Base**

Same as above, with wood base.

LE01W \$5,390.00

Golden Touch Universal Treatment Table

Package from TouchAmerica The ultimate in multi-function convenience, this patented spa table design allows therapists to perform massage, facials, pedicures, manicures, wraps and medispa treatments while the client relaxes in luxurious comfort. The foot basin is easy to clean and sanitize, the lift system is quiet and dependable, and a hot towel cabinet is built in for convenience and easy access. The integrated pedicure tub has a quiet pipeless jet system, fully plumbed including drain. An ionizer system is also incorporated to insure the highest level of hygiene and sanitary operation. This package includes Salon Headrest/Neck Support, plush 4" triple-wrap foam, round corners, hand control, Deluxe FaceSpace II w/pillow, Salon Footrest, and 60-degree elevating side arms.

TA13960PK \$6,645.00

**Lumina Elite Spa Table from ComfortSoul**

The ultimate in versatility and comfort in an affordable facial bed. Includes full electric three sectional top, MemoryFit Face Cradle Pillow, neck pillow, head pillow, and hand-held remote with independent back, leg and height adjustment from 24" to 33". Luxurious DuraSoft upholstery is soft, durable, waterproof, and environmentally friendly. UltraPlush Cushioning System has 4 inches of 3-layered padding engineered at different densities to provide comfortable support. Lifting capacity 400 lbs.

COLE \$1,899.00

**Marimba All-Purpose Spa Table from TouchAmerica**

Sleek tapered top design, allows easy client access. Hand-held control for silent, smooth table height adjustment. Removable upper back section for shoulder and neck work. This spa table takes the client from seated upright to fully reclined - legs can be elevated in seconds for complete comfort. Leg section folds 110 degrees for use with a mobile pedicure unit.

TA11360 \$4,895.00

All-Electric Facial Tables continued

Maxx Spa Table Package from Oakworks

This top-of-the-line table can be positioned fully upright, recline to zero gravity, traditional flat massage table or Trendelenburg alignment. With the strongest lifting column on the market, the Maxx allows all types of esthetic work and massage for all body types. It's fully electric, with programmable presets. Comfortable and supportive armrests adjust automatically with the table position, can be flipped up for easy access, or removed. Includes Quicklock face rest, headrest cushion, and 4" Aero-Cel padding. Ultratouch II upholstery standard.

Heat Blankets

Full Body Heat Blanket from TermoPro

This heat blanket is constructed of heavy-duty washable plastic material, suitable for all body wraps and treatments. Control panel provides temperature controls from 0 to 60 degrees Centigrade for each of 3 separate body zones; legs, midriff and upper body. Wraps completely around body for controlled heating. 7' long. One year warranty. Made in Spain.

ST77508

\$1,350.00

Full Body Heat Blanket from ThermalSpa

Ultra-durable, easy-clean, hospital-approved fabric is antibacterial, antifungal and flame retardant. Three zones with independent temperature controls target heat to upper, middle or lower part of the body; two independent circuits in each zone increase product longevity. The control box has individual controls for each zone as well as a 30-minute silent timer. Six built-in safety thermostats eliminate the risk of overheating. USA.

MX2800

\$975.00

Full-Body Heat Blanket from Bodyslim

Electronically-programmed 3 zone thermal blanket with control unit. Temperature control for each body zone independently. Treated with Bio-Pruf, which continually diffuses a powerful anti-bacterial, anti-fungal substance to the surface of the blanket, preventing contamination and infection. Dorsal support protects the client's back, contoured neck cutout enables client's shoulders to be completely covered, and front closure with snaps allows hassle-free client positioning and wrapping. Control panel allows selection of standard treatment program or your custom programs in English and 6 other languages. Blanket pre-heat function and temperature booster function provided. Hand-held control panel can be wall-mounted.

Advanced Skin Care Systems continued

G5 Contour from General Physiotherapy

Endermathery technology is a safe and efficient way of ridding cellulite and toxins within the body through the lymphatic system. The G5 is a non-invasive massage machine for skin, scalp, muscles, lymph nodes and the circulatory system. Directional-stroking action produces effective and comfortable percussion, gyratory massage, deep tissue mobilization, kneading and compression, skin layer resonance, and other aesthetic therapy techniques, such as cellulite reduction. Comes complete with caster stand, accessory tray, and spa treatment applicator package.

GPG5CNTR **\$2,995.00**

Lumicell Wave 4 Cellulite System from Silhouet-Tone

The capabilities of the Lumicell Wave 4 system lead the industry - with it you can provide services that produce results few other spas can offer. By combining technologies to strengthen the connective tissue, improve microcirculation, and dissolve fat cells, long-term correction of cellulite is now possible. The system combines select energy technologies to treat cellulite in its entirety, going beyond the partial results achieved by single modalities. The Lumicell Wave 4 technologies have been carefully selected to address the different stages of cellulite. By combining Photo-pneumatic massage, infrared energy that penetrates deep into the skin layers, then adding lipolysis through electroporation and tissue firming through Ultrasound, unprecedented results are achieved. Fewer treatments, longer-lasting results and overall client satisfaction are ensured. Features: user-friendly keyboard; on-screen program display; two vacuum hoses with "quick connectors"; pre-programmed cellulite, body contouring, and drainage programs; manual mode for personalized treatments; choice of 4 languages.

ST11355 **\$20,995.00**

Soli-Tone 2500 Photo-Biostimulation System from Silhouet-Tone

This multi-platform unit provides 8 photo-facial pre-programmed treatments and 4 "cell-specific" wavelengths to deliver very targeted lifting treatments. With Extra Super Luminous Diodes that deliver up to ten times the power of regular LEDs, a full treatment takes only 20 minutes.

The photo bio-stimulation wavelengths include:

- Magenta light at 420nm for the treatment of acne and blemishes
- Green light at 525nm to reduce the appearance of hyperpigmentation
- Yellow light at 590nm to reduce redness and skin irritation
- Red light at 640nm, which increases collagen production up to fivefold and restores the dermal matrix to that of younger skin.

In addition, impulse micro-currents applied with the 2 hand-held tools lift and re-contour the face, and sonophoresis helps deliver anti-aging products into the skin. This unit allows you to treat two clients at once; the photo-facial panel and the lifting forks work independently of each other. The panel is ergonomically designed and articulated for complete coverage of both face and chest, and it can be positioned to treat hands, abdomen and back as well. "

ST11508 **\$24,995.00**

WM2320

Sterilizers & UV Sanitizers

Sterilizers**Autoclave Sterilizer 2100 Classic from Prestige Medical**

This Classic model autoclave has a 9 liter capacity and includes instrument basket and tray. Maximum instrument length is 9". Portable unit features one step operation to start the automatic cycle. Indicators show status of operation, and electronic detectors turn off power if there is insufficient water. 'TST' indicator strips (sold separately) provide verification that the correct combination of temperature, steam and time have been met. Mechanical interlock system prevents the lid from being removed while pressure remains in the chamber. Steam sterilization, or autoclaving, is the preferred method for eliminating the risk of cross infection and the only one recommended by healthcare professionals including the World Health Organization and Center for Disease Control.

AM210006 \$1,145.00

Although germicidal UV enclosures are commonly called 'Sterilizers' we are only using this term for our products that actively sterilize instruments. The others we are calling 'Sanitizers'. Be careful as you compare these products. The germicidal UV enclosures are designed to store instruments that are already sterile - they do not actively sterilize instruments. Check your local regulatory requirements for these devices. Some require all spas/salons providing manicure/pedicure services to sterilize all metal instruments with an FDA listed sterilizer.

Sterilizers & UV Sanitizers

continued

5500 Dry Heat Sterilizer from Wayne

This FDA registered sterilizer is constructed with hospital grade stainless steel. 2 instrument trays, convenient tray handle, precision thermostat, signal light, thermometer. Skin Care Equipment

Advanced Skin Care Systems

Cirrus Energy 900 Age Management System from Silhouette-Tone

The Energy 900 incorporates multiple technologies to rejuvenate aging skin cells by re-energizing the epidermal, dermal and muscular layers with different forms of kinetic energy. Light-based technology relaxes facial tension, resulting in a more youthful appearance. Micro-Current LEDs tighten facial contour and diminish the appearance of wrinkles. Ultrasonic Frequencies oxygenate the skin from within, leaving a radiant and even skin tone. Working together, these treatments provide a non-surgical lift, reduce fine lines and wrinkles, reduce pigmentation and reduce acne. Column sold separately.

ST10233

\$7,995.00

DermaPod Advanced Skin Care System from Silhouette-Tone

This DermaPod System is a complete, multi-treatment skin care device including modules for Photo Bio Stimulation, Micro-Current Technology and Transdermal Delivery, in addition to the Microdermabrasion used in conjunction with the other modalities.

This complete system includes the following treatment functions:

- Microdermabrasion skin resurfacing system employs its powerful motor with Turbo Flow Projection System to deliver a vortex of crystals in a safe and perfectly even flow pattern.
- Kinelift, designed to control the aging process by stimulating the epidermis and its underlying structure via Super Luminous Light therapy and modulated micro-currents
- Dermalift, an outstanding skin tightening treatment for neck and neckline lifting
- Purelight B, an amazing acne clearing program using magenta light
- Purelight G, which treats pigmentation problems via a specific green light wavelength that decreases melanin production by 40% to 60%

The synergy created between microdermabrasion and the other functions multiplies the effectiveness of each modality:

- by removing up to 30% of the epidermis, microdermabrasion produces better penetration of the beam incident and better micro-current conductivity.
- photo treatment effectiveness is increased by up to 35% when combined with microdermabrasion,
- more immediate and visible improvement of fine lines, wrinkles, uneven pigmentation and skin tone.

STDERMASYS

\$15,485.00

ECHO2Plus Oxygen Treatment System Starter Pack

The ECHO2Plus Skin Care Treatment System can reduce the effects of aging by nourishing the skin with essential vitamins, minerals, amino acids, enzymes, as well as pure oxygen - by propelling them directly into the skin, through the pores. The treatment is a multi-step process that includes exfoliation, cleansing, hydration and oxygenation. Starter pack includes the quiet and mobile oxygen concentrator and all-in-one skin treatment packs.

Advanced Skin Care Systems continued

G5 Contour from General Physiotherapy

Endermathery technology is a safe and efficient way of ridding cellulite and toxins within the body through the lymphatic system. The G5 is a non-invasive massage machine for skin, scalp, muscles, lymph nodes and the circulatory system. Directional-stroking action produces effective and comfortable percussion, gyratory massage, deep tissue mobilization, kneading and compression, skin layer resonance, and other aesthetic therapy techniques, such as cellulite reduction. Comes complete with caster stand, accessory tray, and spa treatment applicator package.

GPG5CNTR **\$2,860.00**

Lumicell Wave 4 Cellulite System from Silhouet-Tone

The capabilities of the Lumicell Wave 4 system lead the industry - with it you can provide services that produce results few other spas can offer. By combining technologies to strengthen the connective tissue, improve microcirculation, and dissolve fat cells, long-term correction of cellulite is now possible. The system combines select energy technologies to treat cellulite in its entirety, going beyond the partial results achieved by single modalities. The Lumicell Wave 4 technologies have been carefully selected to address the different stages of cellulite. By combining Photo-pneumatic massage, infrared energy that penetrates deep into the skin layers, then adding lipolysis through electroporation and tissue firming through Ultrasound, unprecedented results are achieved. Fewer treatments, longer-lasting results and overall client satisfaction are ensured. Features: user-friendly keyboard; on-screen program display; two vacuum hoses with "quick connectors"; pre-programmed cellulite, body contouring, and drainage programs; manual mode for personalized treatments; choice of 4 languages.

ST11355 **\$20,995.00**

Soli-Tone 2500 Photo-Biostimulation System from Silhouet-Tone

This multi-platform unit provides 8 photo-facial pre-programmed treatments and 4 "cell-specific" wavelengths to deliver very targeted lifting treatments. With Extra Super Luminous Diodes that deliver up to ten times the power of regular LEDs, a full treatment takes only 20 minutes.

The photo bio-stimulation wavelengths include:

- Magenta light at 420nm for the treatment of acne and blemishes
- Green light at 525nm to reduce the appearance of hyperpigmentation
- Yellow light at 590nm to reduce redness and skin irritation
- Red light at 640nm, which increases collagen production up to fivefold and restores the dermal matrix to that of younger skin.

In addition, impulse micro-currents applied with the 2 hand-held tools lift and re-contour the face, and sonophoresis helps deliver anti-aging products into the skin. This unit allows you to treat two clients at once; the photo-facial panel and the lifting forks work independently of each other. The panel is ergonomically designed and articulated for complete coverage of both face and chest, and it can be positioned to treat hands, abdomen and back as well. "

ST11508 **\$24,995.00**

Ultra Aesthetic System from Ageless Aesthetics

The Ultra was designed to treat issues related to the skin as well as to lift and tone the muscles of the face. The Ultra will add an entire menu of advanced services to your business.

- Non-Surgical Facelift - this relaxing treatment addresses all of the major muscles of the face.
- Anti-Aging Facial - addresses wrinkles, sagging skin, blemishes, and puffy tissue while exfoliating away dead cells and deeply moisturizing the skin.
- Body Nourishing Treatment - 7-phase treatment cleanses, exfoliates, addresses blemishes, and deeply moisturizes any part of the body.
- Deep Wrinkle Treatments - addresses wrinkles, sagging skin, blemishes, and puffy tissue while exfoliating away dead cells and deeply moisturizing the skin.
- Aged Hands Treatment - this treatment helps diminish the appearance of age spots and sun damage for younger looking hands.
- Cellulite - with a combination of roller massage and light therapy, this provides a complete epidermal, dermal, and hypodermal treatment of cellulite, leading to a dramatic reduction in the appearance of cellulite while producing radiant skin.
- Acne and Hyperpigmentation - 5-phase treatment specifically designed to bring about a more normal desquamation cycle, remove surface pigmentation, and encourage rapid healing of blemishes.

The Ultrasonic Actuator handpiece utilizes ultrasonic waves passed through a piezoelectric material to generate mechanical vibrations. Different pre-set programs are designed to provide a range of treatments including deep moisturization, lymphatic drainage and ultrasonic microdermabrasion. The Microlase Wrinkle Comb handpiece integrates micro-current and light therapy into a single unit - a non-invasive alternative to collagen injections due to its ability to "plump out" deep lines.

AECLASSIC

Classic Aesthetic System from Ageless Esthetics

Provide discerning clients with Micro-current facial and body treatments, product infusion via Galvanic current, and enhanced tissue repair functionality. Developed by CACI International, the world leader in advanced aesthetic technology, the Classic system combines skin care technologies to allow you to offer these treatment packages:

- Micro-Current Therapy: boosts ATP levels by as much as 500%, and secondary benefits include increased production of collagen and elastin. Choose among pre-programmed settings based on years of expert experience.
- HydraTone™ Facials: specialized rollers "charge" a hydrating gel mask, resulting in deeper penetration of key ingredients. Hyaluronic acid, collagen, and vitamins A & E deliver rejuvenating energy to tired and dehydrated skin.
- Non-Surgical Face-Lifts: completely non-invasive and painless procedure instantly lifts, firms and tones facial muscles.

AECLASSIC **\$15,900.00**

Vacuum Assisted Massage by Starvac

This innovative and efficient device brings the "palpate & roll" technique to vacuum massage. This programmable and patented system can be used for beauty, therapeutic, and sport treatments. Features original and pioneering design, pre-set programs, 13 treatment accessories, and a wide LCD screen, allowing viewing and browsing very easily and quickly through all the functions displayed. Shown with optional 3-shelf trolley and arm (ordered separately).

Microdermabrasion Systems

Dermaglow II with Starter Kit from Aesthetic Solutions

This advanced microdermabrasion system with the new DermaVortex vacuum reduces the need for high vacuum levels, allowing gentler, non-streaking treatments. The 1/3 horse and 310 Watts power, intensity and crystal flow controls, and LCD intensity display allow you to provide a thorough yet gentle treatment. Drop-in crystal canister with Dermalinjector System ensures clog-free operation. Virtually maintenance-free, it uses a non-clogging, crystal delivery-disposal system that provides 25+ treatments between refills. HEPA filtration system filters particles down to .3 microns (10 times smaller than a red blood cell).

ASDG2

\$8,750.00

Dermaglow EST with Starter Kit from Aesthetic Solutions

With a convenient carrying handle and weighing only 14 lbs. the Dermaglow EST is very portable and requires little counter space. It is powerful enough to provide highly effective treatments, and affordable enough to be accessible to new skin care professionals. DermaSeal two-chamber, fully disposable crystal cartridge includes both the clean and waste crystal repositories. When a cartridge is used up, a new one is snapped into place eliminating time-consuming filter changes. It includes the clog-free, DermaFlow hand piece and incorporates automatic crystal flow control to provide optimal crystal flow at any power level. Trade-in upgrade to the Dermaglow II available.

ASI-1002

\$4,750.00

DermaPod MicroDermaabrasion System from Silhouet-Tone

Unlike conventional equipment that projects a direct flow of crystals onto the skin's surface (which leads to variable abrasion and results in redness and discomfort), the DermaPod Turbo Flow System produces a rotational projection, resulting in a perfectly safe and even abrasion, while maintaining a well-defined work area, allowing treatments on sensitive areas such as dark circles under the eye. The patented new handpiece is designed for ease of use and unparalleled results.

- Dual System Microdermabrasion for either Crystal or Crystal-free operation.
- Computerized Control Functions ensure instant calibration and a perfect outcome every time.
- 40 Pre-Programmed Settings ensure one-touch treatments for all skin types without having to constantly reset. Special settings for fragile areas such as eye contour are included in the program.
- Disposable Canisters for quick and easy disposal of crystals jars without the mess.

Combo Steamer/Mag Lamp from Paragon

This popular steamer and mag lamp combo includes an Aromatherapy nozzle and mag lamp swing arm. The mag lamp's adjustable, 5-diopter, swivel lens is distortion-free.

G1101-186 \$690.00

Modular Skin Care System-Base Unit from Ionto-Comed

This state-of-the-art, German-made modular system saves valuable work space with its compact, stackable design. All modules have a splash-proof casing and are operated by a durable touch-sensitive keyboard - their smooth surface makes cleaning easy. Stand holds up to 6 modules, all operating off one electric outlet. This Base System includes:

- Basis Module: Single wide cable manages electric supply and controls all modules (except Ionto HF)
- Accessory Tray
- Ionto Herb Tower Steamer: Please refer to the description of this unit on Page 51. All other modules are optional and can be selected as desired.

KMEISYSBAS \$3,064.00

Eight Function 9000J System from Taiphone

This complete multi-function system has a compact, streamlined design with advanced features:

- steamer arm that swings right, left and forward with a rotating nozzle
- adjustable steam flow that is generated in under 5 minutes
- safety features designed to prevent the steamer from spurting hot water

The 9000J includes these components:

- Mag Lamp: 5 Diopter
- Steamer with 24" arm, 4 minutes heat to steam
- Hi-Frequency: 1 each U.V. Spoon, Mushroom, Glass Point, and Indirect Massage Electrodes
- Galvanic: Roller, Ball, Flat and Grounding
- Vacuum+Spray: 2 bottles, 6 suction cups
- Brushing - 2 each of small and medium brush, plus small pumice stone, soft foamy sponge, and firm sponge
- Wood's Lamp
- Accessory Tray

Lonto Herb Tower Steamer from Lonto-Comed

The sleek new Herb Tower steamer is sturdy, mobile and allows the secure stacking of the Lonto Modular System. This unit leaves enough room to fit a waste bin below and is very easy to add a magnifying lamp or accessory tray.

- Uses tap water.
 - Heats to steam in five minutes.
 - Fully adjustable arm with adjustable flow of steam.
 - 360 degree directional steam.
 - Steam capacity 35-45 minutes.
 - Optic and sonic water level indicator.
 - Quick decalcification and easy clean up.
 - Electronic protection against over-heating/foaming.
 - Pulverized steam replaces traditional pulverizers.
- 37 1/2" high, 24 3/4" long steamer arm.

KMEI70I

\$2,175.00

Lonto Steam Concept from Lonto-Comed

Designed to be the ultimate facial steamer; the Steam Concept has a patented over-foaming protection that prevents boiling water from spraying your clients. New technology heats, on demand, the exact amount of water required. One filling of the 2-liter reservoir is usually sufficient for the day. The extra long, ergonomically rounded steam arm provides safety for the client and freedom of movement for you. Excellent for steaming with herbs and essential oils. The oxygenated steam replaces ozone with none of the disadvantages that ozone can introduce to the lungs, such as edema.

- Magnifying lamp support.
- Works with any type of water.
- Silent timer with two memory settings.
- Safe oxygenated steam, better than ozone.
- Incorporates a Brita water filtration system.
- 100% delivery of your favorite herbs and essential oils.
- Two steam settings, two heating coils and two thermostats.
- Counter balanced steam arm - perfect positioning, every time.
- Patented technology guarantees steamer will never spurt hot water.

KMEI3000

Body Treatment Enclosures

DermaLife Feng Shui from Sybaritic

This affordable spa capsule provides the functions to offer a wide range of body treatments in privacy and comfort.

- Steam
- Chromatherapy
- Sauna
- Vibratory Bed
- Aromatherapy
- Music
- 10 Pre-set programs combine above functions into full treatments

All functions can be turned on separately or combined for different treatment possibilities. Exclusive Hydrofusion functions provide Steam for moist heat as well as a Sauna experience with radiant heat that penetrates deep into the body. Chromatherapy digital lighting system illuminates the translucent pebble-grain shell of the capsule to a pleasing glow. The Vibrating Massage Bed provides continuous and/or pulsating vibratory back massage. Waterproof speaker connects to any audio source, such as MP3 player. To add more to this multi-sensory experience, connect the built-in Video Display to your DVD player. 10 Pre-set Treatment Programs provide different combinations of temperature, vibration, shower and aromatherapy, all turning on and off in timed intervals to produce the desired effect. Or define your own custom program unique to your spa. Includes self-cleaning cycle for hygienic operation. Onsite training and treatment protocols included.

SZ490019

\$17,995.00

DermaLife Oceana from Sybaritic

This top of the line spa capsule includes a full-featured hydrotherapy tub in addition to the wide range of body treatments and other water therapy functions you can offer with privacy and comfort. Includes:

- Hydro Tub with 22 jets
- 4 pre-set programs
- Hand Jet for underwater massage
- Includes all Spa-Jet functions

Below the capsule is a full-featured Hydrotherapy Tub with 22 hydro jets - 8 jets for the back, 8 for the sides, and 4 for the feet. It features a personal underwater handheld massage jet, and Chromatherapy lights inside the tub. Place the platform above the tub, and the Oceana has all the advanced functions of the Spa-Jet model above. Onsite training included.

SZ490020

\$23,995.00

DermaLife Spa-Jet from Sybaritic

This remarkable spa capsule allows you to provide treatments that include many different functions, all in the privacy of this comfortable enclosure:

- Vichy Shower
- Massaging Foot Spray
- Vitamin/Mineral Mist
- Includes all Feng Shui functions

The Vichy Shower system features 10 adjustable over-body showerheads as well as 10 under-body showerheads and a personal hand-held shower. Alternating hot and cold water programs allow contrast therapy treatments. A light Mist is dispersed over the body at the touch of a button, which can be enhanced by adding vitamins and minerals to provide the benefits of mineral springs. The Foot Spray consists of dedicated massaging jets that spray water gently over the feet. The Spa-Jet also includes all functions of the Feng Shui model. Onsite training included.

\$19,995.00

Body Treatment Enclosures continued

HCHTM

Hydrotone Thermal M from Hydroco

Designed to provide the optimum environment for Body Treatments, the Thermal M combines Steam, Aromatherapy, and Vichy Shower functions. Provides privacy for the client, the therapist stays dry, and water plus treatment products go down the drain instead of all over the room. Full wet room not required. Pedestal Base bolts directly to concrete or other types of floor, or use optional floor stand (shown). Optional Hydraulic Lift built in to Pedestal Base allows adjustment with Foot Pedal to the proper height for each therapist. Includes Wet Mat.

HCHTM

\$18,000.00

SVSPSI

Soft Pack System I from Haslauer

In the Soft Pack System the client does not come in direct contact with the water, but is wrapped in a thin membrane which adjusts to the shape of the body due to the water pressure. Between membrane and body pure and unthinned media can be applied e.g. a bath in pure milk and oil. The dilution found in a bath tub does not occur, and the absorption rate of the skin is increased. Easy Installation - no plumbing required. Wide spectrum of applications include heat treatments, cosmetic and dermatological treatments, and thalassotherapy.

SVSPSI

\$30,994.00

HCHTT3

Hydrotone Thermal 3 from Hydroco

The Hydrotone Thermal 3 is a Steam Enclosure, Vichy Shower with Wet Table, and Hydrotherapy Tub elegantly combined into one unit. It provides an optimum environment for Body Treatments as well as Hydrotherapy Tub treatments, without the need for multiple (and expensive) wet treatment rooms. Now you can offer all the services of a larger spa in a small, economical space.

Eliminate the need for numerous pieces of equipment to perform these treatment services, and reduce the mess and clean-up time experienced with traditional body wraps. Because the Hydrotone Thermal is an enclosure designed to contain water splash, wet room installation is not necessary. The client is comfortably warm and relaxed in the steam enclosure, and the therapist remains clean and dry.

The Hydrotone Thermal provides simple push-button controls and offers functionality not available with traditional manually operated equipment. Safety features, shower and water-jet zone control, steam temperature settings and user programmability. - a truly unique model.

HCHTT3

\$34,710.00

Hydrotherapy Tubs

All of our hydrotherapy tubs are designed for commercial spa use, with a means of properly sanitizing the tub between clients. Some offer the full range of hydrotherapy functions including underwater massage, while others are more limited, designed for muscle relaxation and stress reduction.

Hydrotone L1 Hydrotherapy Tub from Hydroco

This hydrotherapy tub features push-button operation with stored professional treatment programs for consistent, effective treatments. Self cleaning cycle assures proper hygiene and clears out treatment products between clients. 38 water jets are strategically placed in 5 different body zones from feet to upper back. Hand jet with adjustable pressure for underwater massage. Automatic disinfection cycle effectively sanitizes pump and water lines between clients. All hydrotherapy products such as sea salts, liquified seaweed or muds, and oils can be used. FDA approved for medical facilities.

HCHTLI **\$24,950.00**

Hydrotone L2 Hydrotherapy Tub from Hydroco

This model is the same as the L1 model, with an added air blower system plus additional water jets. Warmed air bubbles from 168 air injectors envelope and massage the entire body. The L2 also includes 3 preset treatment programs that combine water jets and air bubbles. 58 water jets in 7 different body zones. FDA approved for medical facilities.

HCHTL2 **\$26,750.00**

Hydrotone A Hydrotherapy Tub from Hydroco

Designed to be the finest hydrotherapy tub available anywhere, the Hydrotone A has proven its value to leading spas and resorts worldwide. Features that provide a new level of therapeutic value and enjoyment for your client include:

- Variable pressure from 210 water and air jets - gentle stream to high-intensity massage action
- 8 stored treatment programs designed by hydrotherapy experts
- Customized treatment programs at the push of a button
- Automatic cleaning/disinfection cycle
- Simple push-button operation for consistent, effective treatments
- Whisper-quiet, large-capacity water pump.

60 water jets strategically placed in 7 different body zones, plus 150 air injectors. Variable pressure hand jet for underwater massage. Hydrotherapy products such as sea salts, liquified seaweed or muds, and oils can be used. FDA approved for medical facilities.

HCHTA **\$33,645.00**

Hydrotone X Hydrotherapy Tub from Hydroco

The Hydrotone X Hydrotherapy System has all the same capabilities as the Hydrotone A, but in an extended size that allows taller and larger clients. Internal fixtures adjust to suit smaller clients as well. This model offers easier access for therapists practicing full-body underwater massage, and has additional high-intensity back jets. It is also designed to provide easier entry and exiting of the tub, helpful for older or less agile clients. 70 water jets are strategically placed in 7 different body zones, plus 240 air injectors. FDA approved for medical facilities.

Hydrotherapy Tubs continued

Infinity Edge Hydrotherapy Tub

This unique overflow design allows the bather to be fully immersed, with any displaced water trickling over the sides of the tub. The Infinity Edge is an elegant tub featuring a water canal around the perimeter, with 2 overflow drains concealed in the canal. Roomy enough to accommodate two-person bathing, this drop-in tub includes 6 hydro jets powered by a powerful 2-HP pump, with water jets adjustable from gentle and relaxing to invigorating and energizing. Digitally controlled LEDs provide underwater lighting for chromatherapy with constant color or preset programs. Self-cleaning system disinfects thoroughly between clients using jet-flushing technology developed by MTI. For the benefit of the technician, an Ozonator Sanitation System runs automatically while the whirlpool pump is on, releasing ozone into the water to provide continuous sanitation. Internal inline water heater maintains water temperature during use. Shown here with optional surround, not included.

MTIEH **\$7,222.00**

Infinity Edge Soaking Tub

Same as MITEH, without the hydrotherapy jets.

MTIES **\$3,510.00**

Niagara Hydrotherapy Tub from Stas-Doyer

The Niagara hydrotherapy tub combines the most advanced features a professional tub can offer with a superb and elegant design that will make this unit stand out in your spa. 120 jet nozzles can combine air and water together or air only jets or water only jets can be activated on 3 separate body zones. Acrylic shell with stainless steel frame. Ultra ergonomic interior shape for maximum bather comfort. Integrated step stool. This tub has 3 pre-set hydrotherapy programs and 4 programmable treatments. Automatic drainage at end of treatment cycle. Adjustable pressure underwater massage hose. Fiber optic chromatherapy included. Molded acrylic base skirting available in White (standard) or elegant wood-grained finish upgrade in 9 colors (shown in Pallisandre).

SDNIAG **\$36,100.00**

Sakura Japanese Soaking Tub

This soaking tub is designed for two people seated, facing each other. It includes a variable speed Air Jet System with Aromatherapy Diffusion and Chromatherapy.

- System Aria produces thousands of tiny air bubbles via 120 mini air jets placed across the bottom of the tub. Multi-function control pad allows selection of gentle, vigorous, or pulsating wave action. Air flow is warmed by 300 watt heating element.
- Aromatherapy Diffusion System runs in conjunction with air jet system using your favorite essential oils.
- Chromatherapy: Two LED moodlights with preset functions to saturate water with a rainbow of colors.

This fill and drain tub is designed for drop-in installation. Chrome spout, faucets, and drain (as shown), or low profile TurboFill with white Delrin spout for faster fill rate. Also available without tapware (faucet, valve and drain) so you can provide your own (less \$1400.00). Shown with optional surround, not included.

MTSJST **\$5,995.00**

Waterford Commercial Hydrotherapy Tub

This basic version of the Waterford tub provides hydrotherapy features for an economical price. Designed for ongoing commercial use, it provides the Self-Cleaning Disinfection function that is crucial for proper hygiene. Includes Lift & Turn Draincap.

- 12 water jets powered by a 2 HP whisper-quiet water pump.
- Hydro-Massage function provides high-low pressure cycles from electronic control pad. Offers a range of 7 jet actions from a soft touch to a deep pulsing massage.
- Self-cleaning function flushes all internal plumbing, both air and water lines, with disinfectant concentrate using jet-flushing technology developed by MTI. Also includes Ozonator sanitizing system that automatically releases ozone into the water during use, killing most bacteria on contact.
- Ozonator Sanitation System - ozone generator runs while whirlpool pump is on. System releases ozone into the water, working to disinfect and sanitize the water. Helps to protect technician during session by sanitizing bath water.
- Hand Wand for underwater massage provides adjustable water pressure from a gentle stream to a very high power for breaking up cellulite. Or you can substitute the Hand Shower in place of the Hand Wand.

MTWDC

\$6,122.00

Waterford Professional Hydrotherapy Tub

The midrange Waterford offers more jets, more power, extra-quick fill and drain, for a full complement of professional features:

- 20 water jets powered by separate 3 HP and 2 HP water pumps with whisper-quiet operation.
- Self-cleaning function flushes all internal plumbing, both air and water lines, with disinfectant concentrate using jet-flushing technology developed by MTI. Also includes Ozonator sanitizing system that automatically releases ozone into the water during use, killing most bacteria on contact.
- Hand Wand for underwater massage provides adjustable water pressure from a gentle stream to very high power for breaking up cellulite.
- Hydro-Massage function provides high-low pressure cycles from electronic control pad. Offers a range of 7 jet actions from a soft touch to a deep pulsing massage.
- TurboFill high-flow mixing valve and spout for shorter fill time.

MTWDP

\$9,576.00

Waterford Ultra Hydrotherapy Tub

The features on this high-end unit include a variable speed Air Jet System with Aromatherapy Diffusion and 7-color Moodlighting, as well as all functions of the Professional model. The Waterford Ultra also provides 20 hydro jets, thorough self-cleaning for proper hygiene, a pulsating Hydro-Massage function, adjustable Hand Wand, and extra-quick fill and drain. Advanced features include:

- System Aria provides thousands of tiny air bubbles via 120 mini air jets placed across the bottom of the tub. Multi-function control pad allows selection of gentle, vigorous, or pulsating wave action. Air flow is warmed by 300 watt heating element.
- Aromatherapy Diffusion System runs in conjunction with air jet system using your favorite essential oils.
- LED MoodLighting - 7-color chromatherapy with multiple pre-programmed sequences.
- Deck-mounted Hand Shower with diverter and backflow prevention valve.

Altera Pedicure Spa with Clean Touch Technology from European Touch

This spa features the new Clean Touch Pipe-Free Technology that makes cleaning and sanitation simple and easy. With no internal water lines or inlet screens to harbor bacteria, oils or debris, the patented water jet snaps out of the basin, allowing all components to be easily cleaned and sanitized. Soft, inviting seat features a vibrating massage system and a uniquely designed manual control for reclining and sliding the spa chair. Let your clients drift away as they set the speed, intensity and location of the massage as desired. Optional Roller Massage system. Convenient spray hose and a 3-way adjustable footrest. Both arms open for easy access.

ETALTPFR \$3,395.00

Altera with Traditional Jets

Same as above with traditional pump system. Two adjustable hydro jets that create a soothing whirlpool.

ETALT \$2,995.00

Biarritz Pipeless Pedi Spa from Lemi

Treat your clients to the Biarritz, featuring plush comfort, Italian design, and a noiseless water pump. For comfort, the adjustable seat reclines and swivels. For pedicures, the acrylic spa has 2 Sanijet pipeless water jet assemblies plus an adjustable footrest and hand sprayer. For manicures, hand baths and manicure rests are included. Patented adjustable headrest. Shown here with optional Limoge stool. The Sanijet water jet assemblies are completely removable for maximum hygiene, and so quiet the sound of flowing water is barely audible. Durable marine grade vinyl fabric available in your choice of colors. Gravity drain only.

LM917135 \$5,100.00

Calais Double Pedicure Basin From European Touch

This exceptional custom pedicure unit will add comfort and style to any salon or spa. Available in your choice of finish, trim and cushion color. Customization available. Includes two Clean Touch pipe free water jet assemblies. Basin holds a minimal 4 _ gallons of water per pedicure service. Solid cast-aluminum leg supports independently adjust for pedicure and massage treatments and allows the technician to work freely with both hands. Power drain upgrade available.

ETC05A \$8,795.00

MTPB100

Drop-In Pedi Basin I - Self-Cleaning

Build your own custom pedicure station with this self-rimming acrylic pedicure basin package. Self-contained unit includes all plumbing and controls, plus the additional functions needed by a commercial spa facility. Features 4 multi-directional water jets, powered by 1 HP water pump. Self-cleaning system uses patented technology developed by MTI that insures hygiene for your clients. Backflow prevention valve meets code requirements. Water pressure adjusts from a high agitation to low swirling action. For the benefit of the technician, an Ozonator Sanitation System runs automatically while the whirlpool pump is on. Shown in sample installation on laminate surface with wood siding (not included). Cable-Driven Drain provides knob to open and close drain without putting hand underwater. Hand-held Spray Attachment is mounted on top deck of basin.

MTPB100

\$2,460.00

MTPB200

Drop-In Pedi Basin II - Self-Cleaning

This self-rimming acrylic pedicure basin has all the same features of Pedi Basin I above, but with a curved front for a smoother look and easier access by the technician. Outside dimensions 26 1/2" W x 24" D x 13" H.

MTPB200

\$2,511.00

MTPB300

Drop-In Pedi Basin III - Slimline Self-Cleaning

Designed for ease of access by the therapist, the Slimline model has a basin only 18 1/2" wide, but still with all capabilities of the Pedi Basin I above. Single lever mixing valve and backflow prevention valve provided must be mounted on deck next to unit as part of built-in installation. Dimensions are 18 1/2" W x 25 1/4" D x 8 3/4" - 11 3/4" H. The water pump extends 14 3/4" under chair.

MTPB300

\$2,480.00

Forte Pedicure Spa with Clean Touch Technology from European Touch

This spa features Clean Touch Pipe-Free Technology in the sleek Forte look. The plush seat features a remote-controlled massage system, and reclines at the touch of a button. Both arms swing open for easy access. Convenient spray hose, and easy-access drain that eliminates the need to immerse your hand in the water. Comfortable footrest adjusts to three different positions. Optional Roller Massage System provides a luxurious, full massage for the upper and lower back.

ETFORPFR \$4,495.00

Steam, Sauna,
Lockers & Relaxation

Saunas & Steam

Pre-Cut Sauna Packages

We offer packages containing all the material and equipment you need to complete your sauna. There are 38 standard pre-cut room sizes - from 3' x 4' up to 12' x 12', all with 7' ceilings, the maximum height recommended for optimum comfort and efficiency. Detailed construction plans help you prepare the room for quick installation. For those projects where these standard-size packages don't fit, we provide custom pre-cut packages, as well as room layout planning assistance and computer-generated room drawings at no extra charge. The Pre-Cut Sauna Packages include: Western Red Cedar or Spruce walls and ceiling, interior trim, benches, heater guard rail, pre-hung door, duckboard or plastic mat floor in walking area, bucket and dipper, wall light and thermometer, and head/back rests. Many optional features are available as well.

Please contact us for a price quote.

Custom Steam Room Packages

We offer design assistance and packages containing all the material and equipment you need to outfit your tiled steam room. Supply your locally-licensed contractor with the equipment and specialized components needed to furnish a luxurious steam room; from steam-enabled shower enclosures of 300 cubic feet to communal steam rooms of 2,000 cubic feet.

A typical steam package may contain these components::

- Steam generator & water filter
- Steam heads
- Automatic drain & drain pan
- Digital control (including wireless option)
- Glass door
- Aromatherapy
- Chromatherapy

Please contact us for a price quote.

Steam Generators

Our commercial steam room equipment is in daily use at spas worldwide. Offer the cleansing, moisturizing benefits of steam with a whisper-quiet steam generator and "Cool Touch" steam head. These durable units have stainless steel tank construction, automatic purge capability to prevent buildup of mineral deposits, and removable heating elements for easy and economical service. Several factors in addition to room size must be considered to determine the proper size for your steam generator. Priced from \$1,830 for a small room.

Please contact us for a price quote.

Lockers

Customized Pre-manufactured Wood Lockers

These lockers are available in a wide range of locker door styles in wood and plastic laminate. All locker panels are precision machined, with hardware made specifically for locker use. Water resistant, appropriate even for wet areas, these lockers will not rust.

Select from a wide variety of models, which can be customized to fit the dimensions of your facility. Available in your choice of colors, virtually any laminate or melamine finish. Choose from standard locker interior configurations, or they can be built to your specifications. These units are shipped fully assembled, which reduces your labor installation costs.

Optional accessories to customize your lockers: Framed mirror on door; Lock box, Shoe cubbie, Door tray with towel bar; Drawer with Knob. Lock options include new keyless security locks, DigiLocks, card locks, and standard keyed locks. Complete your locker room with matching towel drops, grooming stations, mirrored end panels, and benches.

Please contact us for more information and pricing.
