

Since 1966, Contractors Hot Line has been a trusted source to connect active buyers and sellers of both new and used equipment, parts, and services. Time is of the essence, and Contractors Hot Line is a weekly publication that has a database of more than 120,000 readers through its print & digital publications, and electronic newsletter. In today's electronic age, it is important for information to reach readers faster than ever.

Each week, more than 89,000 qualified subscribers receive Contractors Hot Line. They rely on the Auction Sales, General Equipment, and Marketplace sections to fulfill their equipment purchasing needs. In 2015, Contractors Hot Line will also be distributed at more than 40 trade shows, exhibitions, and industry events to reach thousands more readers.

A special focus in each issue provides even more value. Issues with featured sections, including Mine & Quarry, Parts & Attachments, Concrete & Asphalt, Utility & Crane, Trucking, and Logging & Land Clearing, will have special circulation to targeted readers within each demographic to ensure it reaches the right readers.

SPECIFICATIONS

IMAGES: Color images intended for process printing should be saved as CMYK. Black and White images should be saved as Grayscale. Desired orientation (rotation, flop, skew) is to be applied in Photoshop.

FONTS: Fonts should not be stylized in your page layout program. Example: Do not stylize fonts by using [bold] [italic] or other font style commands. Use the font containing the desired attribute. In the event the desired font is not available a different font should be chosen. All fonts used must be supplied in a separate folder labeled "Fonts" For Macintosh, the Adobe Postscript Font must be provided. All fonts used in EPS files must be converted to outlines.

MEDIA FOR FILE TRANSFER: Contractors Hot Line® supports the following Macintosh platform media: CD/DVD. Supply a color or laser print of each ad.

ELECTRONIC FILE TRANSMISSION: Contractors Hot Line® is able to accept files electronically using E-mail and FTP. When sending files via email have your graphic elements originally scanned (240-300 dpi) and save them as a JPEG of the highest or maximum quality when preparing to send.
