purehaven®

fall/winter 2020

we remove toxins so you can protect your family

Protecting your family is your #1 priority, but corporate America makes it difficult to accomplish when manufacturers use harmful chemicals in their products.

Not pure haven. Our non toxic products are made with safe ingredients so you can feel good about sharing them with your loved ones. Our six steps to peace of mind demonstrates our process for delivering safe, effective products to your door. Check it out on the opposite page.

If you would like to buy your products at a discount, please talk to the person who gave you this catalog about how to participate in our wholesale pricing.

Then shop our catalog worry free and use our products with confidence. No compromises.

step 1
supplier qualification

A sample, signed affidavit, and certificate of analysis disclosing composition is required.

step 2
incoming inspections

Pure haven quality physically inspects and validates all raw materials.

step 3
product manufacturing

Each product is monitored and tested throughout the manufacturing process.

step 4
finished product testing

All finished product is evaluated to assure it meets established quality specifications and tested for microbial contamination by a third party accredited laboratory.

step 5
final product inspection

All products selected for orders are inspected for quality prior to shipment.

step 6
home delivery

Safe, effective, non toxic products are delivered to your doorstep.

purehaven

soothe. balance. protect.

Feel like you're fighting a losing battle against the effects of aging, pollution, extreme temperatures, and more? It may be because the products you use are fighting against you.

But not pure haven skin care with prebiotics and probiotics! Our prebiotic and probiotic ingredients are essential for creating a resilient microbiome that helps protect and nourish healthy skin.

Together they help promote a vibrant skin barrier, defend your skin's microbiome, lock in moisture, maintain balance, and soothe and calm skin, resulting in a radiant glow!

While other companies may incorporate prebiotics and probiotics into their formulas, when they also add harmful chemicals (such as toxic preservation systems), it counteracts all the good that these important ingredients are known for.

Pure haven non toxic skin care products with prebiotics and probiotics provide the best nourishment. The result? Healthier-, younger-looking skin.

Prebiotics: Feed

Our prebiotic inulin is derived from a synergistic union of high molecular weight chicory and agave inulin that **provides superior hydration and helps support your skin microbiome**. In essence, it feeds your skin.

Inulin is especially beneficial for aging skin, where microbiota counts are typically low due to lower skin cell renewal and lower levels of oil production.

Probiotics: Fight

Lactobacillus ferment lysate filtrate, the same bacteria that is used to make yogurt, supports the skin's natural probiotic ecosystem, helping to soothe and improve skin's appearance.

Our probiotics are powerful warriors that help defend your microbiome, assisting in creating a healthy skin barrier that results in a glowing, radiant complexion. **They aid in reducing inflammation and redness for near-immediate results.**

pure haven's broad-spectrum proprietary preservation technology

We knew that creating a proprietary preservation system that didn't use harmful chemicals would be a game changer. Our original product line already worked just fine as is with no toxic preservatives, but expanding our line proved to be challenging. Our product development scientists reached out to several other companies to find out what they were doing, but each time, those companies' formulas failed pure haven's strict quality controls. Each time, our team went back to the drawing board.

**Our cutting-edge, broad-spectrum,
preservation system is called pure protect,
and it's a game changer.**

In developing this system, pure haven proves that the use of toxic chemicals is not required to create safe, effective products. But other companies still remain satisfied with the status quo, making money from the sale of harmful products, no matter the sacrifices. All while pure haven continues to innovate and push the limits.

"Pure haven products have made my life so much easier, right from the start. I love the sense of security that pure haven provides, knowing that the products I use are safe for me."

— Mary M.

powerful essential oils

A gentle and effective method of enhancing the mind, body, and spirit, aromatherapy harnesses the power of essential oils derived from aromatic plants, trees, and grasses. Pure haven essential oils provide valuable alternatives to chemical-based products. Our essential oils can also be used in the home with diffusers.

Pure quality essential oils are not easy to find and using synthetic or perfumed oils can cause skin sensitivity issues and loss of effectiveness. That is why pure haven offers USDA Certified Organic essential oils, guaranteed pure, safe, and effective.

36 There are many ways to become knowledgeable about how to use essential oils. A quick google search — “how to use essential oils” — will provide valuable information about benefits, how to use, and what to avoid.

purehaven® essential oil

jojoba oil

4 fl oz

Jojoba is the perfect carrier oil to mix with your favorite essential oil for use as a massage oil or moisturizer. It mimics the skin's natural oils and provides lasting hydration. Certified Organic.

for your family and others'

Becoming a pure haven Independent Consultant is about so much more than starting your own business. Our Consultants and corporate teams work together, building relationships and friendships that last a lifetime, all while helping people across the country protect their families from harmful ingredients.

This business opportunity allows you the freedom to create a life that you love, one that includes a supportive team environment, a generous income and product discount, time to spend with your loved ones, and extra perks and rewards that support your lifestyle.

Ask your Consultant about the benefits of joining our pure haven family or visit purehaven.com for more information.

Laura J.
*pure haven
independent Consultant*

"I hosted a pure haven Gathering and became a Consultant that very day! When I learned about the products and the mission, I just knew it was too important to keep to myself. I wanted to share pure haven with others. Since then, not a single day goes by that I haven't been grateful I said yes to this amazing opportunity. It has given me purpose and passion outside of being a stay-home mom to my three children and has brought new friendships and travel, helped me eliminate my student loan debt and pay for extras for my family, and so much more."

Taylor W.
*pure haven
independent Consultant*

"I've always tried to use clean products, but it was hard to navigate traditional stores. I joined pure haven for the ease of buying all my non toxic products from one company and for the product discount, but pure haven has also given me a community. I now have a team of 31 amazing entrepreneurs like me, I'm able to be a stay-home mom to my toddler, I have clean products in my home, and I just earned my first all-expenses-paid luxury vacation with pure haven! It's cool to see that if you put your mind to it, you can accomplish anything!"

superior service is a top priority

60-day empty bottle guarantee

We're so sure you're going to fall in love with our products, we offer a 60-day empty bottle guarantee. That's right! Bottle, tube or jar, if you are not completely satisfied after 60 days, you can send the product back for a full refund of the purchase price of the product (less delivery fees).

we will never compromise

At our very own USDA Certified Organic manufacturing facility, we deliver unique, non toxic formulations that are trusted and true. All pure haven products are cruelty-free, gluten free, and made in the USA.

Our mission is to offer products that are fresh, safe, and toxin free. However, these products and their ingredients are not intended to be used for medical diagnosis or treatment. Products should not be used in place of the advice of your physician or other qualified healthcare provider. Results of these products may vary depending on the individual.
