

The Honor *of*

The background of the entire page is a photograph. The upper portion is filled with dense, overlapping leaves in various shades of autumn: bright red, orange, and yellow. Below the foliage, a stone building is visible, featuring a grey stone wall and a decorative archway with intricate carvings. The text is overlaid on this image.

*The difference between the total count by college and the total count by Greek/Independent affiliation is because: some alumni hold degrees from the College of Religion, which separated from the University in 1959.

Furthermore, if an alumnus left the University prior to receiving a degree, his or her record does not reflect a particular college affiliation.

*Dozens of Greek fraternities and sororities have added to the variety and fabric of Butler life since the University's founding. We acknowledge here all those organizations, many of which have closed their Butler chapters. There have been, no doubt, thousands of University donors among the memberships of all these organizations. Unfortunately, the computer records from which our data are extracted go back only to 1979, and we are unable to provide giving comparisons for Greek organizations which closed prior to that time.

The Alumni Honor Roll

(Listed by Class Year)

THE WORK OF BUTLER UNIVERSITY

is made possible by the generosity of thousands of donors. Our annual Honor Roll is just one expression of our deep gratitude to those who have made financial contributions, offered volunteer support and pledged planned gifts during the previous fiscal year.

We promise donors that we will be careful stewards of their financial investments in Butler. That pledge goes hand-in-hand with our University-wide commitment to reduce waste of natural resources in our operations, and thus lighten Butler's impact on the environment. One way we are doing this is by moving some communications from printed to electronic, web-based formats. This saves substantial printing and mailing costs.

Hence, the changes you see in the 2008–2009 Honor Roll. This printed version recognizes donations made to Butler in honor or memory of others, as well as gifts and pledges of \$1,000 or more, as well as donations made in honor or memory of others, are also listed in the printed version of the Honor Roll, included in the Winter 2009-2010 edition of *Butler Magazine*

*Again, thank you. Butler strives to remain
worthy of your trust and support.*

Consecutive Giving and Total Giving

The numbers appearing after a donor's name indicate the number of consecutive years of giving followed by the total number of years of giving since 1979. For example: "8/16" would indicate that the donor has given eight years in a row starting with the 2008-09 fiscal year (June 1, 2008 through May 31, 2009) and has given to Butler a total of 16 years from the time our computer records were established in 1979 up through May 31, 2009.

Consecutive Giving and Total Giving

The numbers appearing after a donor's name indicate the number of consecutive years of giving followed by the total number of years of giving since 1979. For example: "8/16" would indicate that the donor has given eight years in a row starting with the 2008-09 fiscal year (June 1, 2008 through May 31, 2009) and has given to Butler a total of 16 years from the time our computer records were established in 1979 up through May 31, 2009.

Consecutive Giving and Total Giving

The numbers appearing after a donor's name indicate the number of consecutive years of giving followed by the total number of years of giving since 1979. For example: "8/16" would indicate that the donor has given eight years in a row starting with the 2008-09 fiscal year (June 1, 2008 through May 31, 2009) and has given to Butler a total of 16 years from the time our computer records were established in 1979 up through May 31, 2009.

Consecutive Giving and Total Giving

The numbers appearing after a donor's name indicate the number of consecutive years of giving followed by the total number of years of giving since 1979. For example: "8/16" would indicate that the donor has given eight years in a row starting with the 2008-09 fiscal year (June 1, 2008 through May 31, 2009) and has given to Butler a total of 16 years from the time our computer records were established in 1979 up through May 31, 2009.

Consecutive Giving and Total Giving

The numbers appearing after a donor's name indicate the number of consecutive years of giving followed by the total number of years of giving since 1979. For example: "8/16" would indicate that the donor has given eight years in a row starting with the 2008-09 fiscal year (June 1, 2008 through May 31, 2009) and has given to Butler a total of 16 years from the time our computer records were established in 1979 up through May 31, 2009.

Consecutive Giving and Total Giving

The numbers appearing after a donor's name indicate the number of consecutive years of giving followed by the total number of years of giving since 1979. For example: "8/16" would indicate that the donor has given eight years in a row starting with the 2008-09 fiscal year (June 1, 2008 through May 31, 2009) and has given to Butler a total of 16 years from the time our computer records were established in 1979 up through May 31, 2009.

Consecutive Giving and Total Giving

The numbers appearing after a donor's name indicate the number of consecutive years of giving followed by the total number of years of giving since 1979. For example: "8/16" would indicate that the donor has given eight years in a row starting with the 2008-09 fiscal year (June 1, 2008 through May 31, 2009) and has given to Butler a total of 16 years from the time our computer records were established in 1979 up through May 31, 2009.

Consecutive Giving and Total Giving

The numbers appearing after a donor's name indicate the number of consecutive years of giving followed by the total number of years of giving since 1979. For example: "8/16" would indicate that the donor has given eight years in a row starting with the 2008-09 fiscal year (June 1, 2008 through May 31, 2009) and has given to Butler a total of 16 years from the time our computer records were established in 1979 up through May 31, 2009.

Consecutive Giving and Total Giving

The numbers appearing after a donor's name indicate the number of consecutive years of giving followed by the total number of years of giving since 1979. For example: "8/16" would indicate that the donor has given eight years in a row starting with the 2008-09 fiscal year (June 1, 2008 through May 31, 2009) and has given to Butler a total of 16 years from the time our computer records were established in 1979 up through May 31, 2009.

Consecutive Giving and Total Giving

The numbers appearing after a donor's name indicate the number of consecutive years of giving followed by the total number of years of giving since 1979. For example: "8/16" would indicate that the donor has given eight years in a row starting with the 2008-09 fiscal year (June 1, 2008 through May 31, 2009) and has given to Butler a total of 16 years from the time our computer records were established in 1979 up through May 31, 2009.

Consecutive Giving and Total Giving

The numbers appearing after a donor's name indicate the number of consecutive years of giving followed by the total number of years of giving since 1979. For example: "8/16" would indicate that the donor has given eight years in a row starting with the 2008-09 fiscal year (June 1, 2008 through May 31, 2009) and has given to Butler a total of 16 years from the time our computer records were established in 1979 up through May 31, 2009.

Fairview Heritage Society

Members of the Fairview Heritage Society have made commitments to Butler through trusts, bequests, annuities and other lifetime and estate planning arrangements. Often these gifts honor loved ones or are made in memory of someone special. The Fairview Heritage Society, established in 1994, remembers Fairview Park, which became Butler's campus in 1928. The society honors those who choose to assist future generations of Butler students and faculty.

Donors to Butler

through

Purchase of

License Plates

January 2008 *through* May 2009

Ride *with* Pride

Thank you to the nearly 1600 alumni and friends of Butler University who purchased a Butler license plate between January 2008 and May 2009; all are recognized on the following pages.

Since January of 2008, the Indiana Bureau of Motor Vehicles revised their license plate process for Butler, making it easier for you to purchase or renew a Butler license plate. Unfortunately, this revision means we no longer know who has purchased a Butler license plate unless you make sure to **check the box** when purchasing or renewing your Butler license plate at a BMV location or online. When you check the box, you elect tax benefits for your purchase, and you identify yourself to Butler as a donor. Failure to check the box means the Indiana BMV is not allowed to inform Butler of your plate purchase, and, therefore, the University is unable to acknowledge your support and count you as a donor. A picture of the purchasing form is shown below.

If you forget to check the box, you can still get donor credit by sending a copy of your BMV receipt to the Butler University Office of Annual Giving, 4600 Sunset Ave., Indianapolis, Indiana, 46208. For more information about purchasing a Butler license plate, please visit <http://www.butler.edu/gifts/ways-to-give/butler-license-plates>.

Physician Assistant Preceptors 2008-2009

Hundreds of health care providers have selflessly donated their time and talents to the clinical education of Butler University's physician assistant students. Without their contributions, the physician assistant program would cease to exist and the medical community and its patients would be denied access to the invaluable support provided by program alumni.

Pharmacy Preceptors 2008-2009

Adjunct Pharmacy faculty provide to our students approximately 75% of their advance pharmacy practice experiences in addition to numerous internships. They provide experiences in community pharmacy, hospital pharmacy, long term care, clinic and industry rotations, all of which help our students prepare for future employment. The individuals listed have contributed their time, enthusiasm, guidance and expertise to our students in addition to maintaining their own busy practices. Their level of support has maintained the high quality pharmacy graduates expected from Butler.
