

**SAVAGE GEAR** 

*it's a savage world!*

2019

The love for the modern lure fishing is the fuel that drives our passion and innovation that goes into every single product in the Savage Gear range! That past decade we have been fortunate enough to win your support and constantly growing crowd of anglers that use our products successfully! Every day we get reports and feedback from you and the amount of big fish caught with our gear and lures is incredibly motivating for us. Just now I am working on all the new great ideas for the coming years – with a big smile, knowing that lots of you will be very happy!

So all I can say is: Thank you, and the best wishes you and your fellow anglers the coming year!

**SALT 1DFR RODS**

1DFR One Directional Fiber Reinforcement technology adds superior strength and sensitivity to the rod blank. The patented manufacturing process utilizes an outer layer of longitudinal fibers around the rod blank that significantly increase strength and power in the tip section. 1DFR increase the rod's lifting power and maximum strength up to four times that of a standard rod blank.

The SALT range of rods is comprehensive range, that covers most modern lure fishing! Superb light weight blanks, with great power, sensitivity and a fast but forgiving tip action - perfect for battling powerful fish on braided mainlines.

Each rod is perfectly designed with either CCS or ONE guides – to enhance casting distance and power battling!

### 3D SUICIDE DUCK

A super realistic Duckling top water imitation lure loaded with innovative features!

The 3D Scanned details will fool even the most wary predator fish and ensure you brutal attacks!

Hard ABS ultra-strong body with semi soft and durable feet.

The spinning feet give the lure an incredible lively, splashing action, leaving a great bubble trail and wake calling in the predator fish from distance. For open water fishing, 2 feathered covered treble hooks, one on the chest and one on the back, clipped to the body, ensures a good hookup rate. For fishing in snaggy conditions, remove the treble on the belly, the lure is designed, so it always lands on the belly with the exposed treble hook on the back.

2 styles of action, attach the line to the Beak, and the lure will run with a low discrete posture, like a duckling trying to hide and escape at the same time.

Attach the line to the chest and the lure will run higher, with a more panic fleeing action. The lure can be fished fast or slow, with steady retrieve, long pulls, and mimics a duckling in the most realistic way!

Superb lure for Pike, Bass, Musky and big brutal Catfish!

It is said that a great top water strike, counts for

10 regular hits – tie on the Suicide Duck and find out!!

- Great Top water Action
- Plopping and splashing feet
- Belly Landing Balanced
- Back hook / Weed less option
- Snug fit Hook clips

### 3D RAD

This 3D rat imitation is so radical – we just had to call it the “Rad” it’s loaded with innovative features, the 3D Scanned details will fool even the most wary predator fish and ensure you brutal attacks. Hard ultra-strong ABS body, Nylon Mesh joint with soft ears feet and tail. Attach the lure on the Bill / lip and fish on the top, like a Rat swimming with a big waking and sub surface rolling S-curve action.

We have designed 4 brilliant new colors with UV fluorescents effect and colors – that will light up even the in the murkiest water! Superb colors for predator fish and specially Pike – that simply can’t resist these bright colors.

Attach the lure in the Nose and it will dive down and swim super realistic under the surface – make a spinstop and the lure will pop straight up to the top, with it’s high buoyancy – a brilliant way to really provoke crazy strikes.

The Large size, can be fished through weedy and snaggy areas with a stinger and treble hook clipped on the back.

The Soft Ears, feet and tail, truly set a new standard for a rat imitation lure. The tail is reinforced with a braid core and clips on to the body with an innovative and smart clip design – that make it easy changeable.

Superb lure for Pike, Bass, Musky and big brutal Catfish!

**THE 3D HARD EEL**

A super versatile Real Eel imitation loaded with innovative features! The design is simple yet very clever and will ensure you superb results on any predator that will go for an eel or lamprey!

The 3D Scanned details will fool even the most wary predator fish and ensure you brutal attacks.

The long tail, will make the lure rock enticing from side to side and leaving a great eely snaky tail after it – When the tail is screwed on tail down – the “up force” on the tail part – will push the head of the lure down – so it runs under the surface in more or less the same depth all the way in – Turn the tail Up, and “down force” on the tail – will force the head up – so the eel comes to the surface and runs right under the surface creating a create super wake effect!

The short tail – turns the hard lure into a superb glider – with a great side to side glide – with slight tabs from the rod tip. The downturned tail – will create “up force” on the tail part – so the lure stays down in 2-4 feet all the way in – turn the tail up and the “down force” on the tail will force the lure to the surface straight way – with a super wide and breaking glide.

The big size, comes with innovative double magnets system to hold the front belly hook in position and enhance presentation and hook up rate. Both sizes have a back 8pin – to enable back hook position to be able to mud drag the lure or fish it over grass or submerged weed – even on super shallow water.

We offer spare tails and “custom” provocation tails – to complete the perfect Hard lure tail bait range!

- Runs from top to 6 feet
- 3D Scanned details
- Tournament trebles and Components

## THE 3D HYBRID PIKE 2+1 PCS

A super realistic Baby Pike imitation loaded with innovative features! Unparalleled 3D Scanned details will fool even the wariest predator fish and ensure you brutal attacks. The Paddle tail will give the lure an incredible lively and rocking action with a clicking rattle chamber driving the predator fish crazy!

The Curl tail can be fished ultra-slow, leaving the front part of the lure, very steady and the tail with an enticing and provoking action. A deadly combination on wary and often cautious big Pike!

When the tail is screwed on tail down – the “up force” on the tail part – will push the head of the lure down – so it runs under the surface in more or less the same depth all the way in – Turn the tail Up, and “down force” on the tail – will force the head up – so the eel comes to the surface and runs right under the surface creating a create super wake effect!

The innovative release rig, enables the rear hook to detach from the lure Body when a fish is hooked. The rig is mounted to a build in swivel – so the fish have a very hard time to roll on the lure and use the force to pull out the hooks. The clever system, also protects the soft part of the lure, from staying in the “toothy zone”!

- We offer spare tails – to complete the perfect Hybrid Pike tail bait range!
- Runs from top to 6 feet

**TPE SOFT VIBES**

Soft Vibes is a Soft lipless crank bait, designed to have a superb vibration and flash on the retrieve and Yo-Yo and a great action on the drop, swimming towards bottom, with a subtle rock and flashing away in very realistic escape pattern. The lure sends out vibration and flash that will pull the predator fish from distance and they will hit it hard on the drop or even straight retrieve – also great for vertical fishing!

The TPE material (Temperature Elastomer) is a unique soft yet durable material, that feels and behaves very different in the water than a hard body lure. The fish bite and hold on as if it was a real baitfish – and the TPE material is very durable and will last for many, many bites.

- TPE soft material
- Great vibrating action – on fall and retrieve
- Superb colors
- Ultra Sharp Savage Gear Y-Trebles

(don't store TPE with PVC soft lures)

Rattle in tail slot

**4D PERCH SHAD**

Based on a 3D Scan of a real perch with perfect details and Photo Chrome skin print and added DNA scent! The perch is in periods the main prey for Big pike and these super realistic lures will be deadly!

The paddle tail make the lure rock seductively and the rattle in the tail sends out provoking sounds!

The 2 smaller sizes is "ready rigged", with the Belly treble hook mounted on a swivel, so the pike has hard time to throw the hook.

The big size, is our Brilliant Linethru design, rigged with the Line thru modifier and changeable rig – the lure will slide up the trace away from the shredding teeth and the Pike cannot use the weight of the big lure to throw the hook.

## 4D LINE THRU PERCH

The 4th dimension is created with our detailed Photo Chrome skin print and strike provoking scent! The details are incredible and so lifelike it will be even harder for the predator fish to resist a full committed attack! Each lure's color design has been tested and tuned to perfection and the added DNA scent level will give you the extra edge, when conditions are tough!

The 4D Line Thru Perch is designed with a larger Ø Line thru channel, so it is possible to change the trace easily. It comes pre-rigged with the Carbon49 wire trace, mounted with the Line modifier clip. The 4D Perch has enhanced details and a gat slot for scent pasta or a trout pellet! The perfect, realistic S-curve swimming action combined with the with the immaculate Photo chrome skin print and Scent, will make an incredible lure even more effective!

The line thru channel through the nose gives the lure a swimming action very close to a Real Perch and on those days where the perch is on the Pike and Musky Menu – this lure will catch a monster!

Weight spike added in the pack.

**3D BURBOT**

Big Pike and Musky LOVE Burbot !

A Superb realistic burbot imitation that can be fished trolling or casting! 3D Scanned details and incredible swimming action will fool even the wariest predator fish to go for the kill! The detailed pectorial side fins move with erratic motion, while the tails eellike action is super enticing at the same time – just like a burbot swimming suspended midwater, even the small whisker under the chin, vibrates with micro movement as the lure glides through the water.

The inside harness is designed so the lure can either be rigged as a line through, with an ABS line through tube or with the fixed clip release rig, to ensure less lost fish and less damage to the lure, from the sharp teeth from the Pike and Musky during the fight.

The Lure is balanced, so it swims, gliding forward and downwards with the perfect characteristic Burbot profile. From the "small" 25cm, to the perfect 36cm all-rounder and the giant 50cm this is your new magic tool to lure the giant Pike & Musky.

- Linethru or Fixed rigging option
- Ultra-realistic Moving Pelvic side fins
- Great tail action

**3D ROACH**

The Roach is the most important prey fish for many fresh water predator fish throughout the described territory and we have studied in detail the fish behavior, details and movement to create a series of lures that will provoke aggressive strikes from the predator fish!

The Savage Gear 3D Roach series of lures are all based on a 3D Scan of a real roach and will amaze you in detail, realism and incredible swimming action!

The Line Thru Roach, is truly a superb Roach imitation lure, that looks and swims like the real thing. Our famous line thru system, have been further developed, so the hook can swing freely outside the body on the broadest point of the Body, ensuring great hook up and even better landing rate. The new Little Line Thru modifier is a great innovation and the lure can easily be transformed to hold 2 treble hooks.

The high Body profile, gives the most amazing S-curve action, that cuts and slides to the side on spin stop – just driving the Pike crazy!

The Slow sink version has the line thru the mouth and sinks real slow – and can be twitched and pulled to perform some amazing glides.

The Moderate Sink, will run deep, with a big S-curve action, moving lots of water and really calling in the big ones!

- Superior 3D details and Realism
- Incredible Swimming action
- Hard foam inner harness, soft outer body
- Line thru concept
- Swinging treble on line thru modifier
- 2 sizes, 18cm & 25cm
- 2 sinkrates – Slow Sink & Moderate sink

## 3D CRAYFISH

Air filled claws not only aid in natural underwater movement when the crayfish is rigged forward, but also give a defensive posture when the crawfish is fished on a stand up jig head. It will make micro movements, even at the tiniest movement and water current.

The Air filled head cavity makes the crayfish float so it can be fished on a weighted weedless hook over heavy mats and lily pads and then paused in openings for a slow enticing fall into the strike zone. Just like the real thing!

- Air-filled Claws and head
- Ultra lively moving whiskers and legs
- Iodine, Salt and Crayfish Scent enriched
- Superb realistic gliding action
- Advanced 2 tone colours

## LB 3D BLEAK REAL TAIL

The LB 3D Bleak is a 3D Scan of a real Bleak (*Alburnus, Alburnus*) – we have gone in great detail to make the perfect imitation of a bleak in 3 sizes that will make any wary predator fish hit the lure without hesitation!

The LB 3D Bleak Real Tail – has the tail shape of the real fish and is designed for drop shot or vertical fishing side down – but it has proved great for many, many applications – as a trailer on spinner baits, in lip scull and for downrigger trolling behind a dodger or flasher.

Superb lure for any predator fish in both fresh and saltwater!

## FAT T-TAIL MINNOW – BULK

Designed to swim with a great rocking and pulsing action. Great for linear retrieve on light heads – but also deadly on the traditional heavier heads for jigging and vertical fishing. The fat body profile makes perfect mount on all types of jig heads. The fine T-tail moves at slow speed and soft material makes the lures very lively in the water. The Fat T-tail minnow will catch any predator fish in both fresh and salt water! Deadly on Perch, Pike, Zander, Bass etc.

**3D TPE MAYFLY NYMPH**

The 3D TPE Mayfly Nymph based on the 3D scan of a real Mayfly nymph has incredible details even for its small size. The TPE material is very durable and elastic and can be used on the fly rod. The lure mimics a may fly nymph to perfection and has the most incredible action with fluttering and moving legs on the drop and tail kick on the twitch. The amazing realistic colors and details will fool the wary Trout or bass! The lure will perform brilliant in both current and still water – great for many species, Trout, Perch, Chub and Bass etc.

The TPE material (Temperature Elastomer) is a unique soft yet durable material, that feels very natural. The fish bite and hold on as if it was a real prey – The TPE material is very durable and will last for many, many bites. (don't store TPE with PVC soft lures, TPE material has memory, we recommend to keep in the supplied clam pack )

- Great for ultra-light fishing, Fly fishing etc.
- Ultra sharp and strong hook
- TPE material (don't store with PVC soft lures)
- Micro movement from the legs

## THE SANDEEL SURF WALKER

Based on the perfect 3D Scan of a real Sandeel. The long slender Strong Hard ABS body has the most incredible side-to-side action on the twitch and a slim S-curve action on straight retrieve.

The Floating version has a horizontal balance, slightly keeping the head up on the spin stop – creating the perfect wounded baitfish profile. The long cast design is silent – the perfect top water lure for more wary predator fish

The sinking version is made for Long distance casting in the surf and rougher conditions and has a noisy rattle in the back chamber – it will come straight to the surface on retrieve and walk easily from side to side with great flash and splash – and noisy clicking sound.

- 3D Scanned details
- Multiple action styles

## 3D LINE THRU SANDEEL

We have carefully studied the swimming action and behavior of the sandeel in order to tweak the lure – and the result is incredible! The 3D LT Sandeel swims with a seducing and slim S-curve, head slightly up. On the spin stop, the lure flutters and rolls backwards – like a sandeel fleeing and trying to dig itself into the Sand. On the twitch, the lure will dart erratically and flash in an incredibly lifelike fashion! The Body is made of Super strong ABS and has incredible details! The unique inside spear ensures very long casting distances – even in windy conditions. The Line- thru system makes for perfect presentation and ensures that the predator fish can not use the weight of the lure to throw the hook. We recommend the use of Soft Fluoro Carbon or Finezze Mono line as trace.

- Each lure is supplied with:
- 1 Glow bead
- 1 UV Red bead
- 1 Glass clear beads

## LT SEEKER

The Line Thru Seeker is designed for long casting, even in windy conditions – the blade design allows the lure to swim very lively and erratic with the most incredible 360-degree rotation on the spin stop – so that the lure spins away from the centerline – driving the trout crazy – resulting in hard strikes!

Each lure is supplied with an ultra sharp Treble hook, several colors soft Beads and clear hard beads, to protect the knot on the splitting hook knot.

When the trout is hooked, the lure runs freely up the line and the fish cannot use the weight of the lure to throw the hook.

The Photo print colors are made with Sandeel details and superb finish.

- Linethru design
- Ultra sharp treble hook and oval splitting
- 5 Soft beads Glow and neutral colors, 1 glass clear hard bead
- Lively and erratic action
- 360-degree rotation on the spin stop
- 70mm: ST46 #10, 75mm: ST46 #8, 90mm: ST46 #6

## SEEKER ISP

The Seeker lure is designed for Ultra distance casting, even in windy conditions – but the blade design allows the lure to swim very lively and erratic, with the most incredible 360-degree rotation on the slightest spin stop – creating an incredible flash in the water.

Each lure comes with an Ultra sharp Savage Gear Y-treble and a wide gape beak point lure single hook, so the angler can choose which hook is best for the given condition.

ISP = Intense Strike Point, by filling pre-drilled holes on the lure's body with the strong night Glow and UV epoxy pasta, we have been able to create the most intense strike point you have ever seen!

The Intense strike points draw in the Seatrout and Sea-bass, and they hit the lure hard right in the tail section where the hook is – ensuring a superb hookup rate.

- Super Long cast design
- 360 Rotation on spin stop
- ISP strike points
- Ultra sharp single and treble hooks supplied
- Superb catch rate

## FIX-IT SOFT LURE RESIN

A brilliant liquid that can mend and fix just about any cut or rip to your soft lure. Apply a few drops with the pipette tip of the bottle, and gently cover the surfaces you want to mend together. Let the resin sit and work for a good 20 minutes and the lure will be as good as new! Keep lid on at all times, to avoid evaporation. Best stored cool and out of direct sunlight.

ITEM NO.	DESCRIPTION
47024	SG Fix-it Soft Lure Resin 20ml

## HOLD-IT SOFT LURE SUPERGLUE – 8ML

A Super Glue formula giving great hold between metal and soft PVC. Use it to hold the soft lure perfectly on the jig hook! Apply a drop on the body holder of the shank, before you fully mount the soft lure all the way: locks the lure in place in just a few seconds. Keep lid on at all times to avoid evaporation. Best stored cool and out of direct sunlight.
