## Human faeces found in resident's backyard

SECUNDA - Everybody wants answers and it seems as if the sewage problem is getting worse.

In almost every street there is sewage flowing from manholes, leaving an unbearable stench.

AfriForum refers to this as an environmental disaster.

The Department of Water Affairs and Sanitation (DWS) has presented an action plan to AfriForum to bring an end to the sewage spillage in natural water resources in Secunda and surrounding areas.

The action plan was compiled in cooperation with the Govan Mbeki Municipality and confirms a sewage crisis.

Govan Mbeki Municipality explained that they have been giving more attention to the responsibility of re-doing, refurbishing and expanding of the network and treatment of plants and the Department of Cooperative Governance and Traditional Affairs (CoGTA) and the Department of Water are aware and supportive of this effort.

The action plan comes after AfriForum placed the DWS on terms on 7 August 2015 to force them to intervene urgently.

AfriForum visited various sewage spillage problem areas with the DWS and representatives of the Department of Cooperative Governance and Traditional Affairs (CoGTA) in order to determine the extent of the spillage and to put an action plan on the table.

Mr Bheki Kubheka from the Govan Mbeki Municipality said: "We are worried about the vandalism of pump stations and the depositing of foreign materials in the sewer network that remain a problem.

"Motor and electrical panels are being stolen at an alarming rate, and this affects the normal operation of the pump stations.

"According to the action plan, three extensive projects will be launched with immediate effect."

"Extension 18's sewage pump station will be upgraded.

"The pumps and motors in Extension 22 will be restored and in the third project, sewage pipes will be replaced with wider pipes which will alleviate the burden on the sewage network," said Mr Hein Gonzales, provincial coordinator of AfriForum in Mpumalanga.

The DWS allocated R30 million to upgrade the sewage purification plant of the town over the next three financial years.

This plant has been out of order for some time and sewage flowing into the plant is pumped out and in its unpurified state into rivers and the field.

"This problem is a disaster for the area's residents and can unfortunately not be solved overnight.

"What is worrying, is that the municipality is aware of the fact that the sewage disaster

could have long term effects."

Residents are fed up and worried.

No straight forward answers are given and it seems as if the problem is only getting worse.

The municipality explained that the replacements items stolen and damaged are placing a huge financial strain on the expenses of the municipality, and it is not sustainable going forward.

Also, if this situation continues unabated, it has the potential for a catastrophic water-borne disease epidemic, which is too costly to contemplate.

### DISHWASHERS

Today's dishwashers boast features such as a favourite cycle which lets you pre-program your machine to automatically select options you use the most, greater loading flexibility, quieter operation and greater efficiency than units made only a few years ago.

What are the most important factors when choosing a dishwasher? Decide which feature best fits your lifestyle, do you have a large family or entertain a lot.

Are some dishwashers quieter than others? Absolutely, on certain domestic made models, the pumps and motors are mounted to the tub, a natural sound amplifier.

How do shoppers compare the sound of one machine to another? If sound is a major issue, start by shopping for a dishwasher that touts quiet operation and price is an indicator.

Do some dishwashers conserve more energy and water than others? Yes, one way to tell if your dishwasher will save energy, conserve water and cost less to operate, is to look for the energy star label.

# Left in the dark

SECUNDA - Residents of Trichardt and parts of Secunda were again without electricity due to a problem at the main substation in Trichardt which supply the affected areas with electricity.

The main problem was a busbar that burned out left people in the dark from 30 November to 1 December.

In electrical power distribution, a busbar is a metallic strip or bar (typically copper, brass or aluminium) that conducts electricity within a switchboard, distribution board, substation, battery bank or other electrical apparatus.

Its main purpose is to conduct a substantial current of electricity and not to

function as a structural member.

Busbars may or may not be enclosed in a bus duct.

The cause of this could be due to the fact that maintenance is not done regularly.

Trichardt, Secunda Extension 22 and 23, the Secunda Mall and Terranova were affected.

A team of technicians and electricians fixed the problem and was trying to restore power.

"The municipality sincerely apologises for the inconvenience caused by this unfortunate event," said Mr Bheki Kubheka, Govan Mbeki Municipal spokesman.

The busbar burned out. On the right side is a hole that was caused by the explosion.

A busbar that burned out left many residents in the dark. Some of the damage is visible.

RETHINK. REINVENT.

Sgt Mthombeni diligently investigated Mr Nkululeko Ntantiso's murder.

## Kodile sentenced

eMBALENHLE - The eMbalenhle Police Station welcomed the 10 years' jail sentence given to Akhona Kondile.

Kondile was sentenced at the Evander Regional Court for the murder of Mr Nkululeko Ntantiso (35) in September 2013.

He stabbed Ntantiso three times and killed him in the Mandela Section.

The deceased was allegedly involved with Kondile's ex-girlfriend.

Capt Magonseni Nkosi, police spokesman, congratulated Sgt Mthombeni for working tirelessly to investigate the case.

"The evidence he collected resulted in the successful prosecution of Kondile."

Ms Lorraine Botha and her dog, Pearl.

## Colin celebrates his 50th Parkrun

SECUNDA - Colin Louw celebrated his 50th Parkrun on Saturday, 28 November.

The Parkrun is over 5km which takes place every Saturday at Trichardspruit Dam at 8am.

Johann Reyneke, a volunteer at the Parkrun congratulated Louw for his achievement and urged people to join the run or to volunteer to assist the club in different ways.

He said anyone is allowed to join free of charge and you run or walk at their own pace and all age groups are welcome.

Some parents even push prams or walk with their dogs.

Mr Reyneke said Secunda Parkrun will have a Christmas Day run and asked people to bring their Christmas suits and enjoy the fun.

Louw received an Adidas T-shirt for running his 50th Parkrun.

Lorraine Botha and her dog, Pearl, did their 31st run during the Parkrun on Saturday.

Ms Botha said her dog enjoys the run and her mood changes every Saturday morning.

"Pearl will be jumping with excitement and go and look for my tekkies or sneakers so that I can get ready for the Parkrun.

"I do not know how she gets it right.

"How does she know it is Saturday and time for the Parkrun?"

Pearl is always the first one to get into the car when they go for the run, but it is always a hassle to get her back into the car after the run because she wants to remain at the park.

Johann Reyneke is with Colin Louw who ran his 50th Parkrun.
